SUBJECT: Inquiry Concerning Special Mission to Saudi Arabia

On August 29 I had lunch with Rear Admiral Thomas Kelly, Retired, Washington representative of Socony Mobil Oil Company. He asked me about a report that the United States had sent a special emissary to King Saud. I told him that we had undertaken a number of activities in support of the Secretary's efforts in London and that our approach to all governments on this matter was along the lines of the Secretary's statements.
